

Dear Vinita,

I am not that good with communication, so I try to write....

You're one of the fiercest girl I have ever met, I actually kind of feared you and Topare, don't know why.

Starting off with a sorry for a lot of things, always teasing and calling you by Mota's name, which I will continue to do 😊, you can hate me and my friends for that, but we never meant to hurt you, just pure teasing for fun and nothing else.

There was not a single day we have not teased Mota by your name, Mota actually feared us and used to wait and cease on the opportunities to meet you 😊, but every single time he was caught and again the bakloli would start.

Also, you're extremely good cook, and I will always regret that I missed a very good opportunity of eating regular homely food made by you for 2 years 😊

I am not vouching for Mota, but trust me, he cares about you, a lot, and you can always count on him and the remaining of us 4 whenever you need us.

Take care and always be the same, no matter what, just try calm a bit that's all. You're going to have a great future, trust me 😊

Yours,
